Microsoft

Empower your people to be productive and secure from anywhere

Secure Work from Anywhere Workshop

Teamwork and collaboration are fundamental to build resilience for your people, teams, and organization. Empower people to be productive and secure as they adapt to new ways of working with Microsoft 365.

Workshop highlights

Evaluate your secure work from anywhere options and business implications

Goal is to envision and enable secure work from anywhere scenarios

Two day workshop leaves you with a concrete deployment plan, timelines, and next actions

Enable your team to productive and secure with a Secure Work from anywhere Workshop

With this two-day workshop, we'll show you how you can use Microsoft technologies to:

- Provide meeting experiences to connect teams remotely and onsite
- Simplify day-to-day work with apps and workflows
- Connect people to drive culture, change, and communication
- Manage and secure any device

Why you should attend

We'll discuss the scenarios available with Microsoft 365 to enable secure work from anywhere. We'll evaluate your options and leave you with a concrete deployment plan and next steps.

This two-day workshop is focused on identifying secure work from anywhere scenarios that align to your business needs, addressing the following:

1. Envision Secure Work from Anywhere

Understand the customer objectives and envisioning priority scenarios to enable secure work from anywhere

2. Implementation planning

Develop a plan for implementation including Identity, Teams, securing mobile access with Endpoint Manager and foundational security

3. Activation and adoption planning

Define activation plans and risks and mitigations for a successful deployment and adoption plan

What to expect

Teamwork and collaboration are fundamental to build resilience for your people, teams, and organization. Our goal is to empower people to be productive and secure as they adapt to new ways of working with Microsoft 365.

We'll work with you to:

- Understand your secure work from anywhere goals and objectives
- Envision priority scenarios with a Customer Immersion Experience
- Define your existing and desired work from anywhere scenarios
- Identification of potential blockers and challenges

- Environmental & workload analysis
- A list of actionable recommendations to implement hybrid identity, Microsoft Teams, and security
- Develop a joint action plan based key results, recommendations and next steps
- Teams & Security Adoption Kit, including end user training, workload introductions, and support resources

We'll customize the workshop based on your organization's needs
